

Case Study

EPOXY PIPE RSE RESTORES HOME STUNG BY PINHOLE LEAK ISSUES

The problem:

Dr Robert and Jan Saul live in a beautiful home in Greenwood, SC. They experienced a leak in the wall of the Master Bath. After repairing that leak by cutting a hole in the bathroom wall and discovering that other areas were showing signs of leaks to come, they decided to look at the Epoxy Process. The Davis', another happy Epoxy Pipe customer referred them an appointment was made. Mrs. Saul said "The process was thoroughly explained and Rees answered all our questions."

The solution:

The Epoxy Pipe crew arrived at the Saul's home and began the process by covering the floor with protective matting. When asked about what they liked most about working with Epoxy Pipe their reply was, "Their frequent updates, timeliness, and overall neatness of the project." The project was completed from start to finish in just 2 ½ days. Epoxy Pipe RSE offers the only permanent solution to pinhole and slab leaks today without tearing out walls, floors and ceilings.

The analysis:

When asked did he expect the project to go so well, Mrs. Saul replied, "Knowing Mathis, yes!" "we believe the biggest benefits to using Epoxy Pipe is the Lifetime warranty, minimal destruction to our home, and the ease of such a professional crew to work with" Another happy and satisfied Epoxy Pipe RSE customer. Call for your free home evaluation and see if Epoxy Pipe is right for you.
